

THE FUNKY PUMPKIN

Arts & Crafts Workshop with Madalina Andronic

Do you have an artist inside you, eager to come out and stun the family? Or maybe you just want your children to have a blast exploring their artistic side, while you enjoy the wonderful autumn by biking through the colorful woods or simply relaxing in our hammocks? Join whimsical illustrator Madalina Andronic for a pumpkin decorating workshop. We'll carve monstrous and funny Jack-o'-lanterns which we'll light when dark; we'll create stylish lamps out of gourds to take at home; we'll cook together the tasty pumpkin flesh into pumpkin bread or comfiture and then create by hand a chic package to dress it up, ready to be gifted away.

Madalina is an illustrator whose quirky, colorful work puts a smile on everyone's face. She produces beautiful handcrafted pieces for lovely people and homes. You'll find more about what Madalina does here the-awesome-project.tumblr.com or here de-adevaratelea.blogspot.ro
